

# 1. EU-TYPE EXAMINATION CERTIFICATE

2. **Equipment or Protective systems intended for use in Potentially Explosive Atmospheres - Directive 2014/34/EU**

3. **EU-Type Examination Certificate No:** FM09ATEX0028X

4. **Equipment or protective system:** ICOT 5000 Series Digital Positioner  
(Type Reference and Name)

5. **Name of Applicant:** Westlock Controls Corp.

6. **Address of Applicant** 280 Midland Ave,  
Saddle Brook, New Jersey 07663, USA

7. This equipment or protective system and any acceptable variation thereto is specified in the schedule to this certificate and documents therein referred to.

8. FM Approvals Europe Ltd, notified body number 2809 in accordance with Article 17 of Directive 2014/34/EU of 26 February 2014, certifies that this equipment has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in confidential report number:

3033803EC dated 18<sup>th</sup> February 2010

9. Compliance with the Essential Health and Safety Requirements, with the exception of those identified in item 15 of the schedule to this certificate, has been assessed by compliance with the following documents:

EN IEC 60079-0:2018, EN 60079-11:2012, EN 60529:1991+A1:2000+A2:2013

10. If the sign 'X' is placed after the certificate number, it indicates that the equipment is subject to specific conditions of use specified in the schedule to this certificate.

11. This EU-Type Examination certificate relates only to the design, examination and tests of the specified equipment or protective system in accordance to the directive 2014/34/EU. Further requirements of the Directive apply to the manufacturing process and supply of this equipment or protective system. These are not covered by this certificate.

12. The marking of the equipment or protective system shall include:

II 1 G Ex ia IIC T4 Ga Ta = -40°C to +80°C, IP66

### **13. Description of Equipment or Protective System:**

The ICoT valve positioner is an electro-pneumatic servo system that continuously controls the position of a valve based upon a 4 to 20 mA input signal. The ICoT is a looped powered device that derives its power directly from the input current loop. The instrument measures valve position via a non-contact Hall Effect sensor and controls the valve through a current to pressure transducer. The 5200 and 5300 ICoT outputs a 4 to 20 mA signal proportional to the position measured. The 5400 and 5500 communicates via digital communications. The ICoT valve positioner has an ingress rating of IP66.

Refer to Annex

### **14. Specific Conditions of Use:**

The powder coated surface of the ICOT Series Valve Positioner may store electrostatic charge and become a source of ignition in applications with a low relative humidity <~30% relative humidity where the painted surface is relatively free of surface contamination such as dirt, dust, or oil. Cleaning of the painted surface should only be done with a damp cloth.

### **15. Essential Health and Safety Requirements:**

The relevant EHSRs that have not been addressed by the standards listed in this certificate have been identified and assessed in the confidential report identified in item 8.

### **16. Test and Assessment Procedure and Conditions:**

This EU-Type Examination Certificate is the result of testing of a sample of the product submitted, in accordance with the provisions of the relevant specific standard(s), and assessment of supporting documentation. It does not imply an assessment of the whole production.

Whilst this certificate may be used in support of a manufacturer's claim for CE Marking, FM Approvals Europe Ltd accepts no responsibility for the compliance of the equipment against all applicable Directives in all applications.

This Certificate has been issued in accordance with FM Approvals Europe Ltd's ATEX Certification Scheme.

### **17. Schedule Drawings**

A list of the significant parts of the technical documentation is annexed to this certificate and a copy has been kept by the Notified Body.

### **18. Certificate History**
